About Nagasaki

Nagasaki is a unique place to learn about Japan. Located within a picturesque bay and surrounded by lush green mountains, the city offers a stunning backdrop in which to study abroad. Historically Nagasaki is one of Japan's most important cities, owing in large part to its enchanting 450 year-long history of cultural exchange.

About our 2017 Summer School

Through an engaging combination of **daily Japanese lessons**, special **lectures** (in English) and **fieldwork trips**, students will be given a unique window into Japan. The sites they visit will include a remote area of mountainous countryside where Japan's Hidden Christians secretly kept their faith (set to be listed as a UNESCO World Heritage site in 2018) and a nursing home for atomic bomb survivors. Throughout the summer school, an emphasis will be placed on cross-cultural exchange, and it is hoped that by the end of their time with us students will have made new friends from both Japan and across the world!

Impressions of the 2016 Summer School

I met a lot of interesting people and as they were from all over the world I learnt a lot about different cultures.

I am very grateful and totally satisfied with this experience.
